Gary, the tables are needed in pdf format, which include the correct Table number and title. For now they can be numbered according to the text of the BERA, we'll renumber them for the final ROD. Additionally, I need the BERA in pdf format so that I can retrieve the figures, also numbered according to the BERA for now.

Once I receive this info, I will e-mail the reviewers the eco section of the Draft ROD, along with the tables and figures. I need to send the eco section separately since the table/figures numbers will conflict with the other sections of the Draft ROD

Gary and Rafaell,  
Attached are the Tables from Eric. Eric mentioned something about modification of the Figures; don't know what that refers to, but I'm assuming that he will be sending you the Figures.
